Meeting of City Council.

The regular monthly meeting of the city council was held at the city hall last evening and the meeting was reported to be quite an interesting one, although it was mostly talk.

M. G. Gordon tendered his resignation as city clerk and B. L. Brown was appointed by the mayor to fill the vacancy and the appointment was confirmed by the council.

The matter of appointing a woman policeman was discussed, but the members of the council did not seem to take very kindly to the matter and nothing definite was done along this line.

It was decided by the council to borrow the sum of \$20,000 for the erection of a new school building west of the St. Paul tracks, same to be a four room building.

The Grand Rapids Tribune was appointed the official paper for the ensuing year.

The Missing Word Winners.

First prize in the missing word contest was won by Miss Mabel Plummer, 108 12th avenue south, Grand Rapids, Wis., and the money now awaits her at the Tribune office.

The second prize was won by Mattie Dudley, and consists of a year's subscription to the Tribune.

The missing word was "at" in the W. C. Welsch Ad.

Try again this week, you may be the lucky one.

HOME TALENT PLAY MAY 12

A home talent play entitled "Billy's Bungalow" will be given under the auspices of St. Katherine's Guild on Tuesday evening, May 12th. The play is said to be a good one and one that will be appreciated by those who enjoy an evening of fun. The play will be in charge of Messrs Lewis and Hutchinson, two live young men who have made a business of this sort of thing, and among the cast are some of our most talented amateurs. The principal parts have been assigned and are as follows:

Billy Frank Abel
Gordon, Billy's brother Earl Devendorf.

Ted, a jilted lover Emmett Brooks
Sir Francis Lloyd Welch
The Colonel John Roberts
Peggy Edith Weeks
Kitty Miss Klute
Dot Katherine Gibson
Miss Caldwell Mildred MacKinnon

The play will be given in Daly's theatre and seats will be on sale within a few days.

Automobile Damaged.

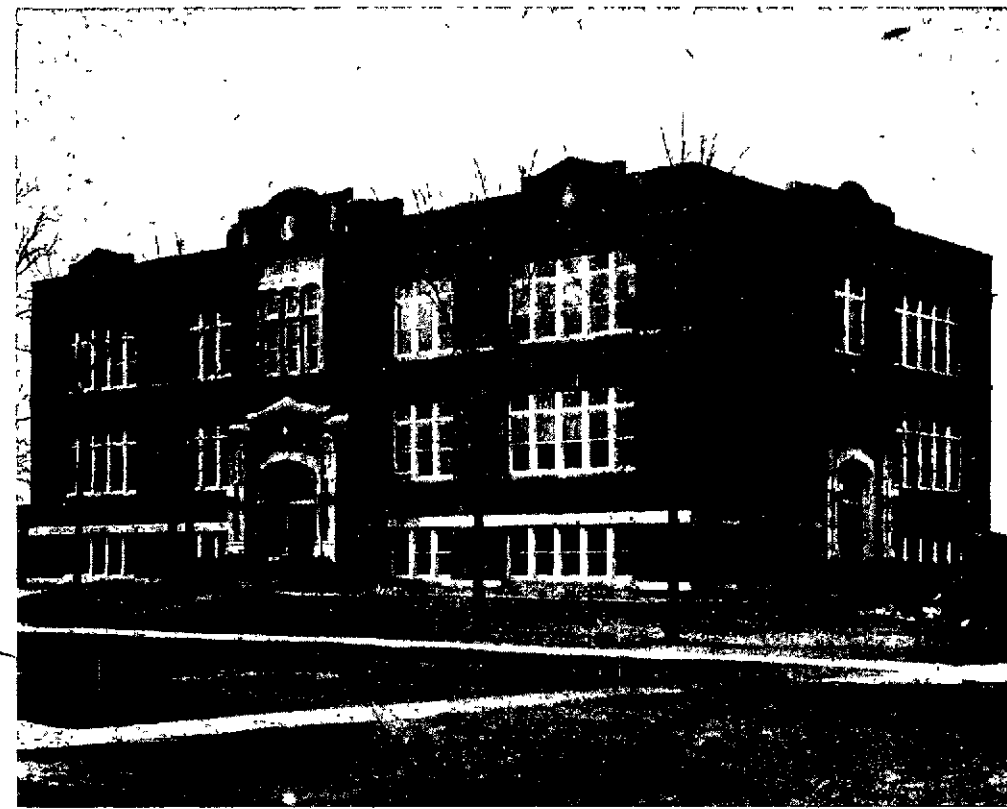

O. J. Leu lost control of his Ford car Tuesday afternoon and ran into the house alongside of the Huntington garage, bending the front axle of the machine and doing other minor damage. The accident was caused by the steering gear sticking so that it could not be turned after the machine had been started up, with the result that the car made a complete circle before it could be stopped.

NEKOOSA'S NEW \$50,000 HIGH SCHOOL

Through the courtesy of the Nekeosa Times we present herewith a picture of the new high school recently completed and dedicated in that village. The following description of the building may be of interest to Tribune readers:

The high school building is of the Jacobean or collegiate type of architecture. By skillful use of this comparatively plain style, Messrs. Parkin and Dockendorff, architects of La Crosse, Wis., have secured wonderfully effective results.

In addition to the splendid lines of the building, is the pleasing color combination of old-rose brick and the white Bedford trim. Among high school buildings of its size, or anywhere near its size, Alexander High stands in a class by itself. In architectural design, quality of material used, fireproof construction, and interior finish, it stands without an equal in the state of Wisconsin.

Quality was the first consideration in every specification. The stone is white Bedford. The face brick is Marion, Indiana vitrified paver.

The construction throughout is absolutely fireproof—brick, tile and reinforced concrete.

The corridors are of fireproof reinforced concrete construction, finished with monolithic terrazzo floors. The wainscoting is yellow Kasota marble with green verdé antique marble trim. The stairways are concrete with treads and risers of English vein white Italian marble. The marble and terrazzo work was done

by the Northwestern Marble & Tile Co. of Minneapolis.

The floors are of the Nolan fireproof design, built of hollow tile with steel and concrete joists and beams, and three inch concrete top. These floors range from eight to ten and one-half inches in thickness, depending on weight carried, and are laid in a solid slab across the whole building. Nailing strips are laid on this and a maple floor finishes.

All partitions are concrete, brick or tile, and finished with Imperial plaster directly on same. The roof is flat with tar and gravel finish.

The interior woodwork is fumed oak, except basement, which is yellow pine.

The hardware is all of Sargent manufacture, blast antique finish, and matches the electric lighting fixtures. The lighting of the assembly, auditorium and corridors is the indirect Eye-Comfort system, installed by J. A. Staub of Grand Rapids, who had the electric contract for entire building.

The building contains forty-one rooms, including cloak rooms, etc. It has extreme width of 116 feet and depth of 114 feet, and is built in T shape.

The basement contains manual training rooms, a public library and reading room equipped by the Ladies Library association; a domestic science kitchen, dining room and pantry; boiler room; fan and temperature regulation room; fuel room; boys' and girls' toilets; gymnasium;

two shower bath rooms and vacuum cleaner room.

The gymnasium is forty-four by sixty-eight (44x68) feet in the clear, with nineteen (19) foot ceiling, and has spectators' gallery.

On the first floor are kindergarten, first, second and third grades, teachers' rest room with toilet and lavatory, one high school recitation room and several cloak rooms.

The second floor has fourth, fifth, sixth and seventh grades, assembly auditorium for high school and eighth grade, three recitation rooms, laboratory with experiment and dark room, and girls' rest room with toilet.

The assembly auditorium is situated over the gymnasium, is equipped with stage and will seat about six hundred in opera seats, or two hundred with seats and desks.

On east side of auditorium is principal's office, and opposite is the reference library.

To give one an idea of the care used in designing as well as workmanship, it was found or estimated that three heavy steel beams would hold the auditorium floor but three extra beams were added for safety. These beams are 46 feet long, 24 inches high and have 8 inch flanges and are placed in pairs at stated intervals. These beams were the largest when order was placed and today there is only one larger beam rolled or manufactured. So it is throughout the building.

Death of Mrs. Hilke.

Mrs. Herietta Hilke of the town of Sigel died on Wednesday, April 29th, at the home of her daughter, Mrs. Peter Krause, after an illness of about a month. Death was due to old age, she being 75 years of age.

She is survived by one daughter, Mrs. Peter Krause, with whom she made her home, and three sons, Charles of Big Falls, Adolph of Rancier, Minn., and Paul of Stockholm, Wis.

The funeral was held on Saturday from the home the services being conducted by Rev. P. P. Pautz of the east side Lutheran church in this city.

Lost to Wausau.

The ball team that went to Wausau on Sunday to cross bats with the state league team were defeated by a score of 11 to 4. The boys were not in the best of condition, but within a few weeks Grand Rapids will have a first class team in the field, and all local fans should help boost for the team. Art Fahrner and Rube Foster did the pitching at Wausau, while Lew Fahrner did the back stop work.

THE COUNTY BOARD NOW IN SESSION

The county board of supervisors met at the county house Tuesday afternoon at 2:30 o'clock for the purpose of organizing the new board. After being called to order, Ernest Eichsteadt was re-elected chairman, he having held that position during the past year and filled the office in a very acceptable manner. O. J. Leu of Seneca was elected vice chairman.

After the election of a chairman an adjournment was taken until today to allow the chairman to appoint his committees. He announced the following appointments:

Finance:—A. E. Bennett, Wm. T. Nobles, John Scheuer, I. A. Tuttle, John Ulmer.

Equalization:—Wm. Hooper, P. McCamley, J. H. Wright, A. B. Cotey, Hans J. Jensen, L. F. Phillips, P. F. Hinrichsen.

Tract Indices:—F. L. Rourke, Wm. Hooper, John Scheuer.

For Diem and Mileage:—Thos. Wright, F. P. Hinrichsen, E. R. Degner.

One of the matters that will come up for consideration at this meeting of the county board will be the report of the committee appointed for the purpose of investigating the advisability of moving the poor farm. It is understood that this committee will advise the leaving of the poor farm where it is now situated.

Witherell-Pautz.

Miss Sadie Witherell and Mr. Martin Pautz, both of this city, were married Thursday morning at the east side Lutheran parsonage, the ceremony being performed by Rev. R. J. Pautz.

They were accompanied by Miss Lulu Witherell and Ed. Pautz of Portage, and after the ceremony the newlyweds will visit with friends in Milwaukee and Chicago before their return, when they will make their home in this city.

The bride is the daughter of Mr. and Mrs. D. Witherell, and is a most estimable young lady, and for some years past has been employed in the local telephone exchange as long distance operator. The groom has held the position of clerk in the postoffice for some time past and is a steady young man of exemplary habits. They have many friends here who will unite with the Tribune in extending the heartiest of congratulations.

Death of Clifford Hurley.

Adams County Press.—Word was received here Monday of the death of Clifford Hurley at a hospital in Eau Claire. Clifford was the third son of the late Hugh Hurley of this village, and about two years ago entered the state hospital at Wausau, for treatment for that dread disease consumption. A short time ago he was transferred to Eau Claire.

Deceased was a graduate of the village high school, and as a boy was endowed with marked literary ability. He is survived by one sister and two brothers, Edith and Hubert of Colorado, and Johnnie of this village.

New Rate on Seeds.

An order permitting the sending of packages of seeds weighing not more than eight ounces through the mails at the same rates as books has been received at the local postoffice from Washington. According to the order the rate of postage on parcels of seeds, cuttings, bulbs, roots, scions, and plants weighing eight ounces or less shall be one cent for each two ounces or fraction thereof, regardless of distance. The regular parcel post rates will apply on packages weighing more than eight ounces.

Andrew Bliss Married.

Word was received this morning from Andrew Bliss at Chicago to the effect that he was married in Chicago on Tuesday, May 5th to Miss Luella Genevieve Fox of the Hotel Sherman in that city. They left the same day for New York City on their wedding tour.

The bride is not known here but Mr. Bliss has many friends in this city and vicinity who will unite with the Tribune in extending the heartiest of congratulations and wishing the newly wedded pair a long life of happiness.

Gave a Good Play.

The Minstrel show given last week by the high school at Daly's theatre was largely attended and was pronounced by all who saw it to be as good a home talent affair as has ever been seen in the city. Considering that the work on the production was done at odd times during the busiest part of the school year, it was certainly a credit to all those interested in it.

CIVIL SERVICE EXAMINATION CLERK-CARRIER.

An examination for Clerk and Carrier will be held at the post office in this city on May 23, 1914.

Age limit, 18 to 45 years on the date of the examination. Married women will not be admitted to the examination. This prohibition, however, does not apply to women who are divorced or those who are separated from their husbands and support themselves, but they are eligible for appointment only as clerk.

Applicants must be physically sound, and male applicants must be not less than 5 feet, 4 inches in height in bare feet, and weigh not less than 125 pounds without overcoat or hat.

For application blanks and for full information relative to the examination, qualifications, duties, salaries, vacations, promotions, etc., address immediately.

WILLIS B. RAYMOND,
Secretary, Board of Civil Service Examiners, Post Office, Grand Rapids, Wisconsin.

Entertainment a Success.

The two plays, "Our Awful Aunt," and "Hans Von Smash," given by the Biron Park Hall, Friday evening, were well attended and greatly appreciated by all present. All of the characters in the plays did exceptionally well. Earl Akey taking the part of "Pete," the darkey, and Jessie Gaffney taking the part of "Our Awful Aunt" were conceded to be the star performers of the cast.

With the talent which the village of Biron possesses and with the interest and enthusiasm which was shown at this entertainment, there is sufficient reason to believe that this will be an annual affair hereafter.

The program was followed by a dance, Sucker's orchestra furnishing the music.

The proceeds of the evening's entertainment amounted to about \$47.00. Probably a part of the proceeds will be used for purchasing manual training equipment for the new school building.

Masonic Lodges

The Masonic lodge of this city treated its members and visiting brothers to a banquet Thursday night under the auspices of the Eastern Star. Seventy-five plates were laid and many visiting Masons from neighboring cities were in attendance.

The immediate occasion for this large gathering was the conferring of the 3rd degree of the Local lodge on Edward P. Gleason, of Port Edwards and Isaac P. Witter of this city. Part of the work was conducted by L. P. Traft of Marshfield and the concluding lecture by Captain E. E. Ames of this city. An enjoyable time was reported by all present.

First Cycle Car Arrives.

Eugene Miller received a Dudley cycle car on Friday, a machine which he has taken the agency for, and which he will have on display at his garage on the east side. The Dudley is a two cylinder machine of nine horsepower, air cooled, 40 inch tread and carries two passengers, and the price is \$395.00. There is no doubt but what the cycle car will be sold to a considerable extent during the coming few years as they are a small compact machine that can be housed with very little trouble, are low in price and operation and are capable of negotiating almost any road. The new car can be seen at the Miller garage.

Stock Fair Tuesday.

The regular monthly stock fair will be held on the east side market square on Tuesday of next week, and farmers and others interested are urged to make a note of the fact.

The Grand Rapids Brewing company will give an eighth of beer to the farmer who brings in the most empty kegs, and the Reflad Packing company will pay the highest market price for all marketable stock.

Manager Bell reports that there is a good demand for milk cows. Don't forget the day and date: Tuesday, May 12th.

Will Visit Norway.

Thomas Jacobson, one of the prosperous farmers of the town of Carson, Portage county, Louis Larson and family, Mr. and Mrs. Ole Berger and Hans Raud of Port Edwards departed on Saturday night for a visit of several months with relatives and friends in Norway. Mr. Jacobson came to this country 32 years ago and has not been back since, but the other members of the party have visited there since they came to America.

It Cost \$25.00

Tony Gavre of Nekeosa was brought before Justice Poinville on Tuesday charged with netting fish in the Wisconsin River, the complaint being brought by Game Warden Cole. The Judge made it \$25.00 and costs. It is reported that this is the second time that Gavre has been arrested on the same charge, and it would be well to give him a term in jail provided he cannot do his fishing in the manner that the law provides.

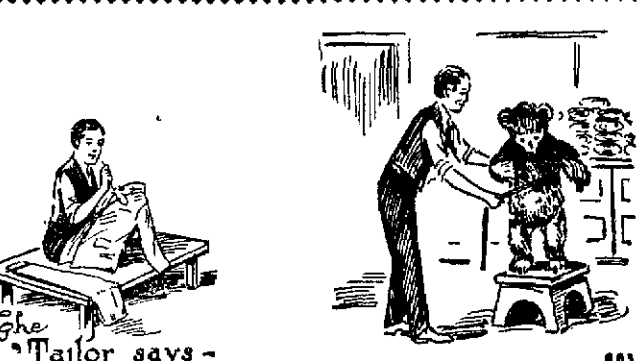

Debs May Speak Here.

Eugene V. Debs, several times candidate for president on the Social Democratic ticket will speak in Minneapolis some time this month. A movement is on foot to have him speak here as it is understood he has an open date. Mr. Debs is one of the best speakers before the public today, and a full house would no doubt greet him if arrangements can be made to have him stop here.

Sportsman Here.

Oscar Kammerud, one of the best known sportsmen in Wisconsin, considered by many the best shot in the state, is in the city on business today. Mr. Kammerud is deputy sheriff of Wood county, with headquarters at Babcock, and is here on official business.—Merrill Herald.

PARLEY PLAN IS ACCEPTED BY DICTATOR

Huerta Wires That He Will Submit Issue to Envoys of South American Republics.

Washington, D. C., April 28.—Formal acceptance by the Huerta government of the offer of Argentina, Brazil and Chile to use their good offices to bring about an amicable settlement of the difficulty between the United States and Mexico was cabled to Spanish Ambassador Riano here Monday night by Porfirio D. Rojas, foreign minister in the Huerta cabinet.

Senor Rojas' note was transmitted at once to the three South American diplomats, who began a conference which lasted last night to the night discussing the next move in their peace plan.

Secretary Bryan, on the part of the United States, having accepted the offer of good offices when tendered on Saturday, the first step now is completed and the way paved for actual negotiations looking to a peaceful clearing up of the situation.

Neither Ambassador Riano nor the peace envoys would make public the text of the Huerta acceptance. It was said, however, that Senor Rojas replied briefly, accepting the offer and thanking the South American plenipotentiaries and the Spanish ambassador.

Big Powers of Europe Aid.
The tenacious of the Mexican situation was relieved Monday as the representatives of Argentina, Brazil and Chile supported by pressure from all Latin-America and from the foremost powers of Europe concentrated their efforts toward a pacific adjustment of the crisis.

The success of the first steps toward mediation—the prompt acceptance by the United States and the announcement of the Spanish ambassador that Huerta had accepted the tender of good offices—produced a feeling of hope which was reflected not only in administration quarters, but in congress as well where "war talk" gave way to a spirit of conciliation.

Demands Far Apart.
President Wilson demands that under any plan of settlement Huerta must go; constitutional government be restored in Mexico, and full apology made for outrages against the honor of the United States.

Huerta demands that the United States forces be withdrawn from Mexican territory; that the revolutionists be ignored in any negotiations unless they accept the terms of his general proclamation of amnesty, and that he be recognized as the provisional president of Mexico.

Just how these demands are to be reconciled and from them a plan worked out which will be acceptable to both sides, no one here seems to know. Even the representatives of Argentina, Brazil and Chile admitted their task was herculean. But they seemed to believe that they would be more successful in dealing with Huerta than the United States has been.

War Plans Go On.
Meanwhile the navy and war departments are continuing their efforts to care for refugees and preparing plans for any unexpected turn in events. Secretary Daniels announced that he had telegraphed the full text of the mediation offer and its acceptance by the United States to both Rear Admirals Badger and Howard with instructions to have the commanders of all ships on the east and west coasts spread the news throughout Mexico.

Dictator Makes Threat.
From the national palace in Mexico City today Huerta issued this significant statement, which is taken by many as a defiance of the mediation plans:

"The Republic of Mexico has always fulfilled its international obligations and at every crisis will defend its rights, trampled upon by the government of the United States."

Fletcher Raises "Old Glory."
With all ceremony, the firing of a salute and dress parade, the American flag was raised on Monday over the division headquarters of Rear Admiral Fletcher.

Texas Still Hysterical.
Fort Sam Houston, Tex., April 27.—Border towns are still hysterically calling on Gen. Tasker H. Bliss for troops for border protection. Bliss believes that the greatest danger is an outbreak of Mexicans on the Texas side, rather than an invasion.

Sixty Americans Prisoners.
Washington, April 28.—A dispatch from Consul Canada confirms the report that sixty Americans are held prisoners at Aguas Calientes.

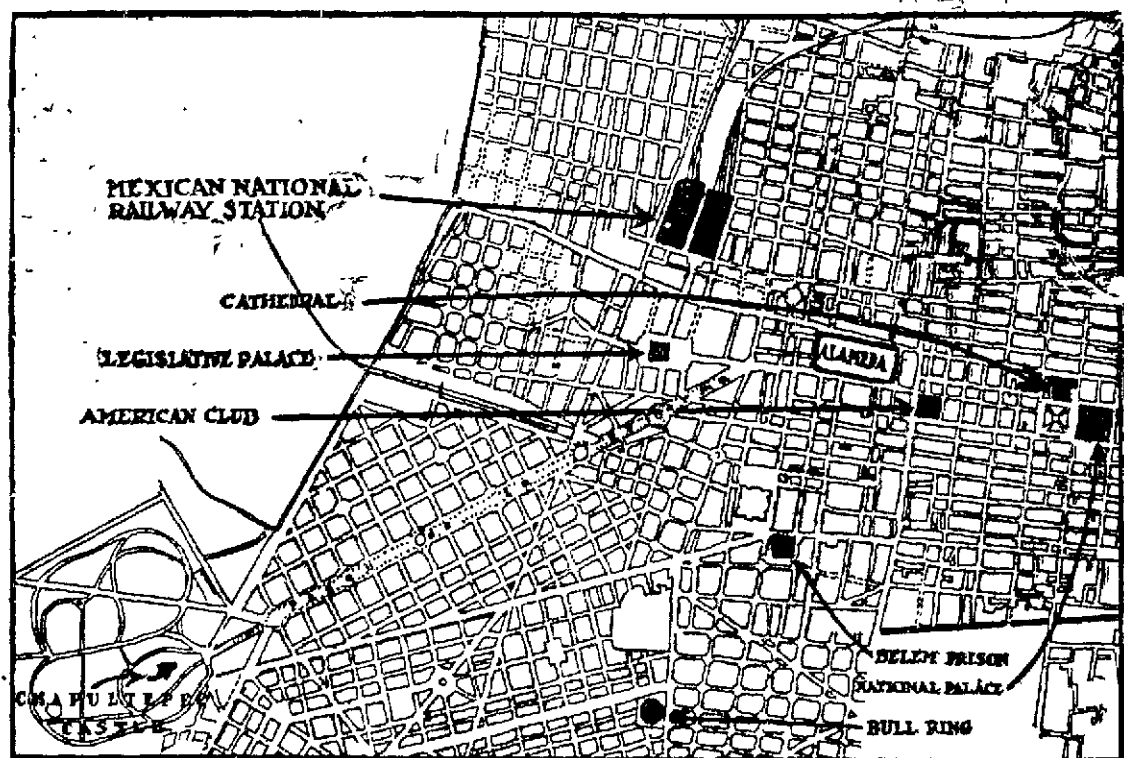

Border Skirmish Reported.
Laredo, Texas, April 27.—A border skirmish between federals and American troops in which ten Mexicans were killed and twenty wounded is reported from Minera twenty miles north of here.

Heads Red Cross Aides.
Washington, April 27.—Mrs. Woodrow Wilson is the honorary chairman of a committee to secure supplies for the Red Cross if it is necessary for them to go into Mexico.

Rebels Again Victors.
Chihuahua, April 27.—Constitutionalist troops under Gen. Pablo Gonzales, who took Monterey, have inflicted a severe defeat on the federals, who were driven from the town and were fleeing toward Saltillo, according to official dispatches.

Admiral Fletcher Puts City Under Martial Law—Non-Combatants Ordered to Leave.

Vera Cruz, April 26.—One thousand refugees from Mexico City and vicinity practically cut off from communication with the coast.

More than thirty Americans attempting to leave the country were taken from a train at Aguas Calientes and imprisoned in a smelter.

Officers of the American club in Mexico City and officials of two banks there were arrested, several American stores looted, the populace demanding death for the Americans, and the cable to Vera Cruz cut.

Huerta's federal army under Gen. Maas encamped less than sixteen miles from this city, while the United States land troops under Gen. Funston can not reach here until some time Monday afternoon.

These were the factors in a situation that led Rear Admiral Frank F. Fletcher Sunday night to proclaim martial law in Vera Cruz.

Soon after instructions from Rear Admiral Badger, commander in chief of the Atlantic fleet, to all American noncombatants to leave Vera Cruz by the steamer Mexico, were posted at the consulate and other conspicuous places.

VILLA TAKES NEUTRAL STAND

Leader of Constitutionalists Says He Will Not Be Drawn Into War With U. S.

Washington, April 25.—With the attitude of Gen. Villa plainly stated, although in some circles his sincerity is questioned, hope was revived at the White House today that the position of this government that Huerta is the sole object of operations in Mexico at this time would be accepted by the Mexican people, particularly the constitutionalists, thus avoiding serious complications and giving the United States an opportunity to show its purpose of punishing Huerta and his supporters only.

In an interview with Consul Agent Carothers, which has been forwarded to the state department, Gen. Villa is reported as expressing high regard for Americans and having said that he would not be drawn into a war with this country and at the same time denouncing Huerta. It is also understood that Carothers sent confidential information that Villa and Carranza do not view the seizure of Vera Cruz in the same light.

Monterey Falls to Rebels.
Brownsville, Tex., April 24.—"Monterey is in the hands of the Constitutionalists after a five days' battle," was an official announcement today from Constitutional headquarters in Matamoros, accompanied by the ringing of bells and an outburst of rebel enthusiasm throughout the city.

Men Swarm Rigging.

The rigging of the transports was so filled with regulars in brown uniforms that they seemed like huge swarms of bees let loose upon the harbor. As tugs laid hold of the Kilpatrick to pull her into midstream the bands began to play "Everybody's Doing It" and the soldiers began to dance on the decks. There were tears on shore, but only the song of battle in the hearts on the transports.

Says War Does Not Exist

Plans for Calling Out of Militia Reserves Halted by Decree of Cabinet.

Washington, April 25.—The cabinet today formally adjourned that a "state of war does not exist." This, for the time being, halts the calling out of the militia reserves, although active preparations for this action went on, even as far as the selections of the concentration camps.

Secretary of War Garrison stated that the army will not invade Mexico under present conditions. This does not include Vera Cruz, to which troops are now being carried on transports.

The administration draws the distinction that the taking of Vera Cruz is not an invasion.

The troops along the Mexican border are expected only to return the fire of Mexicans if they are fired upon. The officer who sends his troops across the border in pursuit of hostile Mexicans will be in danger of court martial under the present situation.

It is understood that dissension has arisen between the two secretaries over conditions on the Mexican border, where Secretary Garrison favors more vigorous measures than that wanted by the secretary of state.

Reports again revived the rumors that Secretary Bryan will not much longer remain as a member of President Wilson's official family.

U. S. CONSUL IS IMPRISONED

Huerta's Soldiers Heap New Indignities Upon Americans—Flag Torn Down.

Washington, D. C., April 26.—Huerta has accepted President Wilson's mediation proposal, but his officers and soldiers have heaped fresh insults on the United States, apparently with a deliberate intention of provoking war.

By far the most serious of the many outbreaks reported on Sunday was the treatment to which United States Consul General Philip C. Hanna at Monterrey was subjected by Huerta's soldiers. The consul general reported to Secretary Bryan Sunday night that he had been humiliated; carried through the streets as a prisoner and placed in jail by Mexican federal officials on April 22 and left behind the bars until released two days later by the constitutionalists when they captured the city. Flags were torn from the United States consulate and other buildings and trampled upon.

WISCONSIN STATE NEWS

Madison.—Fire caused by lightning partly destroyed Christ Presbyterian church, one of the largest in the city. The loss is estimated at \$30,000.

Kenosha.—County Clerk Russell H. Jones applied to the federal department of commerce and labor for the deportation of Eugene Mazzoli, a tubercular Italian, who came to this country less than six months ago.

Madison.—President Ralph E. Smith and Secretary Matt Tappins of the state board of control have left to visit prisons in the middle West, with especial attention to the federal prison at Leavenworth, Kan.

Oconomowoc.—The following are the newly elected officers of the Boy Scout council at Oconomowoc: President, H. Kirk White; vice-president, A. C. Hathaway; secretary, John A. Cook; treasurer, Paul R. McKee. The first annual banquet of the troop was held at the scout rooms.

Delafield.—Two Indians, John Jeremy and his son, arrived here from Stillwater, Minn., to search in Lake Nagawickia for the bodies of I. H. Kelly and Frederick Sprute, cadets of St. John's Military academy, who were drowned when a racing shell upset. The water is 30 feet deep.

Madison.—Howard M. Jones, 14, of La Crosse will represent Wisconsin in the Northern Oratorical league contest to be held at Madison on Friday, May 1. Seven universities, Northwestern, Iowa, Oberlin, Minnesota, Illinois, Michigan and Wisconsin, will be represented in the contest.

Racine.—The bodies of two men were found, one in the river and another along the railroad tracks at Frankville. The former was identified as that of Joe Elles, a laborer employed by the Wisconsin Gas & Electric company, who disappeared two weeks ago. The other body was not identified, having been terribly mangled by train on the Milwaukee road.

Madison.—In an opinion to District Attorney L. Olson Ellis of Jackson county, Attorney General Owen holds that the same person may be elected to the offices of assessor and justice of the peace and perform the duties of each under the law. He says that the offices are not incompatible in their functions and that it is a matter purely of public policy, whether it is advisable.

Waukesha.—Kenneth Labar, son of Mr. and Mrs. R. E. Labar, New York, former president of Waukesha, has his heart on the right side, according to a physician who made an examination. After an X-ray examination it was found that the entire organism was reversed, including heart, liver and stomach. The appendix also was said to have been transposed to the opposite side.

Kenosha.—The highway commissioner of Kenosha county let contracts for the improvement of the Geneva road to a point more than three miles west of Kenosha. A contract was made with the Waukesha road and the contract price will be \$33,300. Mookler & Darrow of Waukesha secured the contract. It is the largest contract for country road work ever made in this county.

Madison.—The state industrial commission held a conference with representatives of teachers' employment agencies in the state regarding proposed rules and regulations governing the operation of such agencies. The practice of so-called "splitting of fees," charging excessive rates for service and running educational publications in connection with such agencies were the principal things considered.

Racine.—Bernard Longwell, twenty-five, lies at St. Mary's hospital in a critical condition, with his right arm severed at the shoulder and suffering from other injuries. Longwell fell from a train near Ellabell, Ill., and his right arm was mangled. He crawled to a tower signal, a quarter of a mile away and, setting the signal against a south-bound train, boarded it when it stopped, telling the conductor that he wished to be taken to Racine. Longwell was taken from the train at Corral and brought to Racine on a special.

Kenosha.—In municipal court here Judge C. R. Randall handed down an order annulling the marriage of Miss Ella Bierbaum and John B. Wurthman, the latter of Chicago. The couple were married in Milwaukee on August 8 of last year and on the day after the marriage the husband was driven from the house by his father, August Wurthman, an engineer in the Chicago fire department, who declared that his son had committed bigamy and that he had left a wife and two children in Chicago when he went to Milwaukee to wed Miss Bierbaum. Wurthman has never been heard of since he was driven out of the house in Milwaukee by his father, and it is thought possible that he committed suicide.

Black River Falls.—The city council accepted the offer of \$10,000 from the Carnegie corporation for a library.

Manitowish.—Touhan Salvano of Racine is planning to establish a colony of Italians on the Davis lake shore property between this city and Two Rivers.

Manitowish.—It is reported from Quarry, this county, saying wild turkeys have recently been seen there. A number of the birds, which have not been seen in this section for many years, have migrated here and farmers of the town are taking every precaution for their protection.

Green Bay.—A committee appointed by the county board awarded Petersen & Eger of Wrightstown the contract for building the new tuberculosis sanatorium in this county. Their bid was \$14,687.25.

Madison.—The Westminster Presbyterian church of this city, at its annual meeting, voted to stop all whispering in church and to take measures to prevent late arrival at church. No whispering will be indulged in by congregation members while the pastor is in the pulpit, and all parishioners will pay a voluntary fine if they arrive late.

Dopere.—B. F. Smith, one of the wealthiest men in this city, died from the effects of a puncture of the heart. He fell and broke a rib. The rib punctured his heart. Doubt pneumonia set in.

Oconomowoc.—The St. Joseph's Catholic school was formally opened to the students. The school was dedicated by Bishop Fox of Green Bay. The school belongs to the St. Joseph's parish and was erected at a cost of \$50,000, being three stories, including the basement, and of the most modern design and equipment. It will accommodate 500 pupils.

GEORGE F. BAER DEAD

NOTED LEADER IN PENNSYLVANIA COAL INDUSTRY DIES.

Was Printer, Editor, Soldier and Civil Engineer Ere Becoming President of Reading Railway.

Philadelphia, April 28.—George F. Baer, president of the Philadelphia & Reading railway, died at his home here Sunday evening. He was stricken suddenly Saturday morning while walking to his office.

George F. Baer was for years one of the most striking figures in American life.

His career was a remarkable one. In turn he was printer's devil, reporter, editor, soldier, civil engineer and railroad president.

Mr. Baer was born September 26, 1842, in Somerset township, Somerset county, Pennsylvania, of German ancestry.

He worked on his father's farm and attended the common schools and later the high school in Somerset. He was apprenticed to the printing trade in the office of the Somerset Democrat, and while connected with the paper set type, ran errands, solicited advertisements, collected bills and reported news for the paper.

He saved enough money to allow him to study at Franklin and Marshall college for a year and then with his brother's aid he obtained control of the newspaper for which he had worked.

He was strongly Democratic in the editorial policy of his paper at the beginning of the Civil war and he had to defend it from a mob that threatened to destroy it. That he was attached to the Union, however, he demonstrated soon after, when he raised a company, of which he was captain, and which became Company B of the One Hundred and Thirty-third Pennsylvania Volunteer Infantry.

His first battle was the second Bull Run and he served later with distinction at Fredericksburg, Antietam, Chancellorsville and other fights. After Chancellorsville he was made adjutant general of the Second brigade, Humphrey's division of the Second corps of the Army of the Potomac, becoming a major in his twelfth year.

After the war he read law in the office of one of his brothers, and was admitted to the bar. He removed to Reading in 1888.

RENEW STRIKE WAR

STRIKERS ATTACK MINE—TWO REPORTED SLAIN—TOWNS SET AFIRE.

WILSON APPEAL IS FAILURE

Plas to Mediate Coal Strike Refused by J. D. Rockefeller, Jr.—Tells President's Agent That Fight Will Have to Continue.

Denver, Colo., April 28.—It was reported here Monday that the towns of Louisville, Lafayette and Marshall, in the northern Colorado coal fields, have been attacked by striking miners with machine guns, Louisville being on fire. Walsenburg, Colo., April 28.—It was reported by Sheriff Jeff Parr of Huerfano county that four men had been killed in a battle between 75 mine guards and strikers at the Walsenburg mine, two miles south of here.

Strikers also attacked the McNally coal mine of the Colorado Fuel & Iron company, three-quarters of a mile west of Walsenburg.

Two are reported dead and two are known to have been wounded. The dead unidentified are lying on the field. The wounded are:

Mrs. Margaret Gregory, shot through the arm.
Peet, striker, shot through the leg.
The McNally mine is still burning. Fighting continues.

Within ten minutes after the first shots were fired every place in the city from which the battle could be seen was crowded with people with field glasses. The marching and counter-marching of the strikers and guards looked like moving pictures.

New York, April 28.—John D. Rockefeller, Jr., told Representative Martin D. Foster, chairman of the house committee on mines and mining, that he (Mr. Rockefeller) was in no position to arbitrate the labor troubles in the Colorado coal fields. Mr. Foster came to New York as the personal representative of President Wilson.

Washington, April 28.—After a long conference at the White House between the president, Secretary Garrison and Senator Thomas, Secretary Garrison announced that no orders sending federal troops into Colorado would be issued last night. He said the situation would be taken up today.

The president had before at the conference a pile of telegrams from representatives of the mine owners and miners, state authorities and private citizens, in Colorado, practically all of them appealing for federal troops.

98,000,000 LIVE IN U. S.

POPULATION, INCLUDING THAT OF POSSESSIONS, 109,000,000.

Census Report Shows Big Increase in Population of Many Cities, Notably New York.

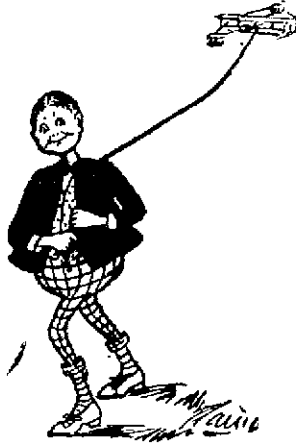

Washington, D. C., April 28.—Continental United States has a population of more than 98,000,000 people. The country within its possessions is peopled with more than 109,000,000 persons, the census bureau announced. Census experts have figured that the population of continental United States July 1, 1914, will be 98,781,324, against 91,972,266 on April 15, 1910, when the last census was taken. For the United States and its possessions they estimate the population that July will be 109,021,392, compared with 101,748,269 in 1910. Estimates for cities under 100,000 have not been announced.

Following are the July 1, 1914, estimates of population of cities of 100,000 or more:

of the air is the coming problem. Hot air, liquid air, compressed air, and the trade winds. Down at the Kellogg yards we are interested in the trade winds—not so much the up- per currents as those which swirl around our balance sheet and keep our pay roll from getting lost, strayed or stolen. I want to tell you it's a serious thing when your profits show up on the windward side of the ledger and the sheriff comes in and says: "The ceiling for you."

We haven't hit the ceiling yet at Kellogg's but we are willing to help you out on any kind of good lumber or beaver board, roofing, lime and little things. That's right.

FORMALIN WILL CHECK SMUT—BAD ONION DISEASE

As a safeguard against the attacks of "smut" onion growers will do well to make use of the control measures advocated by the College of Agriculture, University of Wisconsin. This consists of formalin applied in the furrow with the seed. Experiments conducted last year in the onion growing sections of the state have convinced many of its practicability. The solution which brought most success was made at the rate of 2 ounces of formalin per gallon of water and applied at the rate of 145 gallons an acre, or about a gallon to every 300 feet of row. By means of an ordinary 2 gallon oil can fastened by iron clamps on to the seeder and a soft lead pipe capable of being twisted in the proper direction, the solution can be quite easily applied. Smut is the most prevalent fungus disease attacking the onion. It is caused by a parasite living with in the soil. As the land which is especially adapted to onion growing is somewhat limited, the same fields are too frequently planted to this crop year after, with the result that the soil becomes charged with disease organisms. The first symptoms of the disease are the darkening of portions of the leaves which on being broken, open, will be found to contain powdery masses of spores. The fungus attacks only young seedlings and becomes more serious in Wisconsin every year.

WHY SHOULD NOT CITIES ADVERTISE?

There are scores of cities in Wisconsin that have opportunities for which some one is looking—why should they not advertise? The Wisconsin Advancement association and the land owners of the state have repeatedly conducted general advertising campaigns in the large papers of the middle west and they have been so successful that they will be continued in the future. Is there any reason why the cities that have opportunities should not do the same thing? What is needed in many sections of the state, and that applies particularly to the newer portions where almost any amount of money could be absorbed in development, is capital. Let the outside world know this and there will be an agreeable response. Go farther and show that Wisconsin is one of the best spots in the world to live in, and people will come to the state with their money. The cities should become active—it will pay. It has paid other cities.

WELL, I SWAN!

(By Geo. D. Bartlett.)
Says old man Haskins, with a frown,
That there ain't much use movin' to town,
And crowdin' into a four-room flat
Where there ain't nuff room to hang your hat,
Where eggs cost about a nickel apiece
And butter is about like axle grease,
We gotta admit there's a lot of charm
In livin' right out on the good old farm,
When the wife and children want to go
And see a good movin' picture show,
When they're shovin' a pertickler fancy reel
I kin get 'em there quick in the oat-mobble.

The town folks ain't got nothin' on us
In spite of all their show and fuss,
We got plumbin' all through our place,
And fine washstands for your b' and face,
A bathtub, too, we can fill 'em up in
And we don't have to 'fraid of the crack.
So far as the day things we have—
There's durned!

en't been as one-two-three,
About as a party phone, you see,
For we've never late in gettin' our
And we, rural delivery never fails.

We do all the things the city folks do,
Our children go to the colleges, too,
And there isn't a durned new-fangled idee,
That we don't grab as quick as quick as can be.
We've got all the latest machines,
We got all the high-toned magazines,
We've got new thoughts in our old think tanks,
And quite a lot of dough in the city banks.
When it comes to cats, why, we have to laff,
We have got them all skinned by a mile and a half,
For "rubes" you can no longer put us down,
"Rubes" nowadays are all livin' in town.

A Vile Slander.
One of the curiosities of the house of commons, very rarely seen, was Earl Drax, for many years member for a Dorsetshire borough. Once at a general election on the day previous to the nomination he put out the following address to his constituents: "Electors of Warham! I understand that some evil disposed person has been circulating a report that I wish my tenants and other persons dependent upon me to vote according to their conscience. This is a dastardly lie, calculated to injure me. I have no wish of the sort. I wish and I intend that those persons shall vote for me."

Very Good Sir.
Father—How is it that I find you kissing my daughter? Answer me, sir. How is it?
Young Man—Fine, sir; fine—Satisfire.

SELECT SOUND POTATOES FOR SPRING PLANTING

Large yields of sound marketable potatoes can be produced only by planting clean seed stock. Through careless methods of planting, some of the older fields in southern Wisconsin have become infested with scab or other disease organisms, but with due precautions the thousands of acres of newly developed potato land may be kept free from infection. When sorting over seed potatoes preparatory to planting, close watch should be kept for any showing of discolored flesh. If badly affected they should be thrown out entirely. However, when seed is scarce and high priced, or in cases where not only a slight discoloration of the tuber is noticeable, the affected part may be cut away and the remainder used. Owing to the discovery of the European potato scab in some sections of the East, no seed stock should be brought into Wisconsin from that region this spring. If there be any such stock already on hand it should be critically examined for any signs of scab disease, and in any case must be disinfected before planting. Germs of the common scab and black leg diseases may be destroyed by disinfection. Soaking with formaldehyde or corrosive sublimate solution are the two methods most commonly used. For most purposes the first method is recommended by R. L. Jones, specialist in plant diseases at the College of Agriculture, University of Wisconsin. This consists in soaking the seed for two hours in a solution of one part formalin to 249 parts of water, (1 pint to 30 gallons.) This same solution can be used repeatedly without losing strength. Soaking for two hours in corrosive sublimate solution serves the same purpose. The mixture should be made one part corrosive sublimate to one thousand parts of water. Tablets suitable for this use may be had at any drug store. Another fungus, the black scurf, is destroyed by corrosive sublimate even more effectively than by the formalin solution. Where the potatoes are grown for the southern or western seed trade, black scurf is highly objectionable. For ordinary purposes, however, the formalin treatment is better. Fumigation with formaldehyde gas is also possible and is sometimes used in large storage cellars. It is less reliable and attended with more or less danger of injury to the tubers and hence is not a common form of treating potato seed in Wisconsin.

Adieu to Arid Arkansas!

We're moving out of Arkansas, the Grand Old Commonwealth; we're exodusin' some's else, and goin' for our health. We've sold the farm and called the dogs and tied the cow behind the wagon, and a moister land is what we 'low to find. We've packed the children in the rig, a-settin' 'em on hay; we don't know whur we're goin' to, but we're shorly on our way. That's me and Jeff, Bill, Dick and Sal, and Beauregard and Maw, and Grover, Dewey, Braxton Bragg, all leavin' Arkansas, and Kate and Cate, two sets of twins, and William Jennin's Bryan, a-drivin' from the danger zone and wishin' we was flyin'.

They've passed a prohibition law down thar at Little Rock, that's raised more kinds of billy-hell than would an earthquake shock. It's jarred the state from end to end, and twisted it awruck, and made the moss stand right up straight upon tradition's back. It's plumb ag'in all prece-dent, our liberty it wrecks, and walks in tones of thunder on the honest voters' necks. The state will soon a Sarah be, just like that distant land whur A-rabs ride on camel's humps across the burnin' sand.

Aw, yes, of course, we hate to leave; but—goes—slightly, man!—we're hikin' on to save our lives, and goin' while we can. We're aimin' for some other state, some safer, saner land, whur snake bites and their certain cure go gally ha-ha!

Carving a sand
I wrote my name would stand for aye,
And truste
But soon, and my feeble lines away!

ed my name upon the wood
And after years returned again,
I missed the shadow of the tree
That stretched of old upon the plain.

To solid marble next my name
I gave as a perpetual trust,
An earthquake rent it to its base,
And now it lays o'erlaid with dust.

All these have failed. In wisser mood
I turn and ask myself, "What then?"
If I would have my name endure
I'll write it on the hearts of men.

In characters of living light,
Of kindly deeds and actions wrought,
And these, beyond the touch of time,
Shall live immortal as my thought.
—Horatio Alger.

Didn't Understand.

The daughter of an old farmer was reading the local paper to him. She had got to the personal paragraphs and read this:
"Mrs. William Morris, nee Black, has returned from a visit to her parents in London."
"I don't quite understand that," said the old gentleman.
"What don't you understand?" inquired the daughter.
"That part about Mrs. William Morris, nee Black. What does 'nee Black' mean?"
"Oh, that's French and means that she was born Black."
"Born black!" exclaimed the father excitedly.
"Yes, 'Nee' is French for 'born.'"
"Well, it ain't so," ejaculated the old man, jumping up and shaking his fist. "I knew her parents, and they were as white as anybody that ever lived, and I'll write to that editor about it."

Before he started off, however, the daughter explained matters, and the old gentleman cooled down.

BIRON.

Mrs. Lucy Rayome went home o Rudolph after spending a week at the A. L. Akey home.

The show and dance given at the Park Hall was a grand success, the hall being filled to its entire capacity. There were 18 members in the play and the music was as good as any one could desire. This hall under the new name will always be appreciated. Who comes next?

Mr. and Mrs. Harold Clark are the proud parents of a big eight pound boy.

Mr. and Mrs. W. J. Fobart are visiting at the A. L. Akey and Joe Fobart homes for a few days.

Wm. Giebels is the one who gave the name to our new club, it being The Biron Park Club which it deserves.

"Our Awful Aunt" and Hans Van Smash and the Patch Nigger were the best of the play at the hall and everyone in fact was fine.

Mr. Giebels and his men are planting trees all around the park. The park will soon be a beautiful spot.

Archie Shearier is still on the sick list being bothered with boils.

Fred Trudell was in our berg the past week with Kempfert's team working around the new houses getting the gardens plowed for the rears.

Bill Cohen has resigned his position at the mill as fourth hand and gone home to help his father on the farm.

Mr. and Mrs. F. Biron were in your city a few times the past week on business.

Harold Clark has moved into the Tony Haydock house.

A. L. Akey and Aug. Kempfert drove up to the Christ Oleson farm Sunday on pleasure bent.

Joe Elacher has quit the job on the jammer to go farming.

The engineer on the jammer has resigned and moved back to your city.

Mrs. Milo Brown has got back from her visit at Beloit.

Mr. and Mrs. Ed. Witte and little son of your city are visiting the Christ Oleson home for a few days.

John Possley has gone west, to be gone for a month or so looking over the country. He might like to stay here if he liked the country he might like to stay here.

SEE and TRY a DE LAVAL

We do not believe that a farmer who knows anything about farm machinery could be induced to buy any separator other than a De Laval after he had seen the latest improved De Laval machine and had given it a trial.

It is a fact that 99% of all separator buyers who do SEE and TRY a DE LAVAL machine before buying, purchase the De Laval and will have no other. The 1% who do not buy the De Laval are those who allow themselves to be influenced by some other consideration besides real genuine separator merit.

If you are thinking about buying a cream separator we will consider it a favor if you will permit us to set up a De Laval for you on your own place and have you give it a fair trial.

You will be under no obligation to buy the machine if it does not make good all our claims, and should you decide to keep it, you cannot conveniently pay cash, you may do so on such easy terms that it will actually save its cost while you are paying for it.

FOR SALE
Farms and Unimproved Land.
—One farm consists of 401 acres with good buildings, 130 acres of which is under the plow, about 160 acres in timber, mostly hard maple, and the balance of land is pasture and brush land. All of the land is slightly rolling and there is no waste land on any part of the 401 acres. The farm can be easily subdivided into 2 or 3 separate farms. There is a cheese and butter factory within one mile from the house, and the house is three miles from Sherry station, on the Soo Railway.
I also have a large amount of land which is known as "cut over" land and will be sold in large or small tracts to suit the purchaser. These lands are situated in Wood and Marathon counties.

Wm. Hooper of Nekeosa was in the city on Monday looking after some business matters.

F. S. Root, buttermaker at the Rudolph creamery, was a pleasant in the city on business.

Huntington & Lessig received another car load of Ford cars on Saturday from Detroit, Mich.

Louis Eberhardt, one of the solid farmers on R. D. 7 was a pleasant caller at this office on Saturday.

Henry Beimler has received the contract to install a vapor heating system in the new Rogers Mott home.

Mike Pillar has purchased two lots on 17th Ave. of the Lyon Land Co. and will erect a new home this summer.

August Miller is among the many who are driving a Ford car this season which he purchased thru Huntington & Lessig.

G. Schiller town of Carey was caller at this office on Saturday while in the city on Saturday on business. This office acknowledges a pleasant call.

Frank Carey, who has been on the sick list the past three weeks, was able to resume his duties as salesman for the Reiland Packing Co. this week.

If you have anything to sell, try the Tribune want column. It does the business.

Mr. and Mrs. D. Reiland returned on Monday from their wedding tour in Minnesota. They have gone to housekeeping in the flat in the Nic Reiland building.

O. S. Hanson of Strong's Prairie was in the city for a few hours on Saturday, having come up from Adams county on a business trip. He made the trip by auto.

Carl Wipfl was among the pleasant callers at the Tribune office on Friday. Mr. Wipfl has recently accepted a position with the Elm Lake Cranberry company, where he will be employed during the coming summer.

J. H. Young of Decorah, Iowa, spent several days last week in this city looking after some business matters. Mr. Young has recently purchased a farm in the town of Saratoga and is having some work done there preparatory to starting farming this spring.

August Friday sold his home on the west side the past week to Mr. and Mrs. Henry Knoll who will take possession this week. Mr. and Mrs. Friday expect to build a cottage on 11th Ave. this summer. This is another case where it paid to use the Tribune Want Column.

W. Luther of Nekeosa, was in the city on Saturday. He reports that Mrs. Luther, who recently underwent an operation in Chicago for appendicitis and tumor, has since been getting along nicely and there is every indication that she will make a complete and rapid recovery.

Frank Winger's company opened a four days engagement at the opera house on Sunday evening to a big house. This is a good company with good actors, good music and they are giving the people some good shows. No doubt they will be favored with good houses during their entire engagement.

W. H. Getts departed on Sunday evening for a two weeks trip in Southern Wisconsin and Michigan for the MacKinnon Mfg. Co. selling wagons. This company has been unable to fill their orders lately owing to the big demand for their wagons and it will not be long before they will have to increase their facilities.

A meeting was held at Nekeosa on Friday for the purpose of hearing arguments pro and con on the place to locate the new bridge which it is proposed to build down there. The hearing was held before the highway commission, but nothing definite was settled regarding the site. The two factions in the village are apparently as far apart as they were when they started in.

The "Safety First" pins have been received and have been distributed among the scholars of the high school, who have been interesting themselves in the movement since it was first inaugurated. The workmen at the Consolidated plant, who have had an organization for some time past, have also been supplied with the buttons. The movement is one that has been gaining considerable headway of late, and it will no doubt have a tendency to induce people to be more careful of the life and limb of their fellow workmen as well as themselves.

A grocer in a small town in North Dakota sent his Swedish clerk out to do some collecting. When the clerk returned from a little trip he reported, "You-Yonsen say he vill pay ven he sells him hogs; Yim Oleson, he vill pay ven he sell him wheat, and Pete Yensen say he vill pay in February." "Well," said the boss, "that's the first time Pete ever set a date to pay. Did he really say he would pay in February? Well, say tank so," said the clerk, "he say it ban a dam cold day you get that money. I tank that ban in February."

Mr. and Mrs. Arch's McMillan and George B. McMillan returned on Saturday from St. Petersburg, Florida, where they had spent the past five months. They are all enjoying pretty good health and say that St. Petersburg is an ideal place to spend the winter so far as climate is concerned, altho they claim that when you have praised the climate, that is about all there is to say in favor of the country. The soil there is a pure white sand, and has to be liberally fertilized in order to raise any kind of a crop, and the result is that very little is done in this line except in raising fruit. The country depends almost entirely on the tourists for a living, and in the summer after the weather gets warm many of the hotels and business houses close down until the people are driven south again.

SCENES OF BOYHOOD DAYS

Marathon Times:—Louis Wollenschlager, who has made his home at Chicago since his wife died at Grand Rapids last summer visited with the families of Jacob Vetter, A. Vetter, and Herman Vetter the past week. Mr. Wollenschlager came here from Pittsburg, Penn. in 1856 as a boy of nine years with his parents, Mr. and Mrs. Anton Wollenschlager, the only other settlers then living here being his uncle Louis Wollenschlager, Geo. Lang, Emil Kalb, Anton Koester and a Mr. Krieb's. The little colony of pioneers suffered great hardships that first winter. According to Mr. Wollenschlager's statement the snow was seven feet deep and the nearest places where provisions could be bought were Mosinee and Wausau.

The Wollenschlager family was quite wealthy, having brought about \$6000 from Pennsylvania, but during that first awful winter here Louis' mother often cried and said "Of what use is all this money to us if we have to starve." Partial relief was obtained when the men caught a deer that had broken through the crust of ice on the deep snow. In 1859 the Wollenschlager family moved back to Pittsburg to return again to Marathon in 1863. The family must have made quite a settlement by themselves for there were no less than eight girls and eight boys in the same, or a total of sixteen children. In 1872, Mr. Wollenschlager was married to Victoria Vetter, the ceremony being performed in the little old frame church by Rev. Spitzelberger. After his marriage Mr. Wollenschlager made his home at Stevens Point and Grand Rapids. At the latter place Mrs. Wollenschlager died last summer. "And now, says Mr. Wollenschlager, I am a poor lonely old man, who doesn't feel satisfied anywhere." From here he will go to Minnesota, Pennsylvania and other states in the west, where he will visit with relatives.

Prisons as Schools

Human life is valuable—some more than others, of course—but after all the great problem is how to get the most of real worth out of life. Some do not even try; they are, in business parlance, called "dubs." As the other extreme I know a man, a real worker, who actually begrudges every hour he is obliged to spend in sleep, because for want of time he cannot do nearly all the things he would like to accomplish. However, the men who do things in the world are those who conserve their time, and do not spend an hour at some task they can perform in twenty minutes. About the most worthless thing in human life, for years past, has been the time of a convict in our states' prisons. In spots they have been farmed out to contractors, and recently they have built some excellent roads—by far the most logical use of their time. Not all convicts, however, are qualified for that work, and little can be done on roads in winter, so at best there is a lot of time going to waste.

Prisons and jails have been considered schools of crime, but the warden of the state penitentiary of Nebraska is trying to make his place a school in which to learn useful knowledge. A correspondence course has been established there, the studies including all the regular University of Nebraska educational extension work and all the common-school branches. The university remits all fees and gives regular credits for examinations. The experiment is promising thus far, and, in view of the splendid record of correspondence schools generally, Warden Penton has every reason to believe results will fully justify his expectations.—H. H. Windsor, in the May Popular Mechanics Magazine.

Can Ride on Mail Routes.

A new rule which may be of advantage to county road officials appears in the January, 1914, supplement of the United States Postal Guide. This ruling allows county commissioners and road supervisors who have direct charge of the roads over which rural mail is carried to ride with mail carriers when discharging their duties. This will mean a large saving in automobile and delivery bills, as most of the principal roads are mail routes, and the county road officials will now be able to inspect them by going over them with the mail carriers. Following is the rule as it appears in the Postal Guide:

"Postmasters at rural delivery, offices are instructed to permit road supervisors or commissioners having direct charge of the highways over which rural delivery routes are in operation to ride over the routes with rural carriers when such road officials are actually engaged in the performance of their duties in connection with the inspection of the roads."

Some Collisions.

Dr. Monk had roast wild duck and yellow legs for dinner Monday, thanks to a misunderstanding of schedules and running time which these two birds had some time during the night. As a result there was a head end collision between the denizens of the air and the duck was killed by having the bill of the yellow legs penetrate its brain, and the yellow legs was killed by having its neck broken. It was a remarkable accident, and the cause was very evident in that the bill of the yellow legs was broken off and still remained in the head of the duck. The sharp bill of the small bird had penetrated the head of the duck near the eye and the speed at which the two birds were flying at the time of the collision must have been quite in excess of the speed ordinances of the city.—Neillsville Times.

Any time a man is a good loser you can bet he didn't lose much. A girl shouldn't allow her waist line to be the line of least resistance. There are scarleties in a lot of lines, but there are always enough poor relations to go around.

—The Big Musical Comedy, Mutt & Jeff, Monday, at Daly's Theatre.

No matter how fat a woman gets she can always remember how slim she was before she was married. There are all kinds of people in the world, including the yep who believes he is purchasing a genuine diamond for two bits.

We are all trying to get money, but we like to abuse those who have acquired that which we are seeking.—Luke McLook.

Killed by a Horse.—While un hitching a team of horses from a drag at noon last Tuesday Will Edgridge received a kick in the abdomen from one of them which cost him his life. He was knocked unconscious and when found was just coming to. He tried to finish unhitching the team but fell and was carried to his home and a doctor summoned, but nothing could be done to help the injured man as part of the intestines had been severed and he suffered intense pain until death relieved him at about 1:30 p. m. on Friday. The deceased was fifty-one years of age and was a resident of Northport for the last thirteen or fourteen years and was known to all as an honest, hard working man and a conscientious Christian.
